& NETWORKING FORUM

PREMIUM PRODUCT DISPLAY
AND LAUNCH SECTION

Total solutions for Paint Manufacturing & Application

PAINT PRODUCTION

- Raw Materials And Chemicals
- Pigment, Adhesives, Additives
- Construction Chemicals
- Capital Equipment/Machines
- Testing & Analytical Instruments
- Paint Conveying & Handling Sys.
- Packaging & Containers

APPLICATION SYSTEMS

- Systems for Paint & Coatings Application
- Powder/Liquid/Coil Coating Systems
- Spray Guns /Paint Booths/Etc.
- Paint Brushes & Rollers
- Drying/Curing/Stripping Equipment
- Automation & Compressors
- Allied Technology & Services

INDUSTRIAL COATINGS

- All Kind of Industrial Coatings- Protective, Anti Corrosion-Water proofing-Fire retardant
- Metal-Wood-Plastic-Glass-Ceramics
- Marine Coatings , Auto Refinishes
- Special purpose Coatings
- Pre treatment & Protective Chemicals
- Surface Preparation & Finishing

INDIA SPECIALITY CHEMICALS CONCLAVE 2026

– *Speciality Chemicals for Economic Growth & Job Creation* –

21st MAY 2026, New Delhi

India's chemical industry is on a strong growth trajectory, aiming to reach **USD 1 trillion by 2040** and strengthen its global presence. Specialty chemicals including agrochemicals, dyes & pigments, construction chemicals, and personal care ingredients are emerging as key growth drivers, supported by rising exports, domestic demand, and government initiatives such as *Make in India* and PLI schemes. To showcase industry innovations, technologies, and emerging opportunities while discussing key challenges, ASSOCHAM is organizing the **India Specialty Chemicals Conclave & Exhibition** with the theme- **Driving Global Exports through Innovation, Sustainability & Safety** on **21 May 2026 in New Delhi**.

Exhibitor PROFILE

- Agrochemicals/Crop Protection Chemicals
- Polymers, Adhesives and Sealants
- Catalysts and Enzymes
- Coatings, Dyes, Pigments and Intermediates
- Pumps & Valves
- Linear Technology
- Instrumentation
- Cosmetic and Personal Care Chemicals
- Water Treatment and Construction Chemicals
- Suppliers and Distributors
- Surfactants
- Digital Solutions Providers
- Industry Automation and Technology Providers
- Testing, Inspection and Certification Organizations
- Compressors
- Process Equipment
- Actuators
- Castings
- New-Age / Emerging Chemicals
- Educational / Research Institutions

Why EXHIBIT?

- Showcase your solutions to **200+** participants coming from across India.
- Engage with India's leading specialty chemical manufacturers, buyers, and solution providers
- Showcase your innovations, technologies, and product portfolio to a targeted industry audience
- Digital Pre & Post Event Promotion.
- Establish strategic partnerships and technology collaborations
- Expand your market presence in high-growth chemical segments
- Network with Industry Experts and Policymakers
- Gain insights into emerging trends, regulations, and future industry directions

Participation FEE **INR 50,000**

Book your Space **Now**

Exhibition STRUCTURE

- The stall (Shell Space- One side Open) of 3*2 will be provided. (*GST 18% Extra)
- Basic accessories (2 chairs, 1 Table, 2 Light) will be provided.
- Dedicated exhibition area integrated with the conference venue.
- Structured networking opportunities alongside conference sessions.

Special Rates for **EARLY CONFIRMATIONS**

EXHIBITORS' PROFILE

CHEMICALS

- Fine & Specialty Chemicals
- Agrochemicals & Fertilizers
- Basic Chemicals, Dyes & Pigments
- Green & Sustainable Chemicals
- Chemicals from Herbal & Natural Resources
- Paints, Coatings & Adhesives
- Soaps, Detergents & Surfactants
- Flavours, Fragrances & Food Additives
- API Intermediates & Pharmaceutical Ingredients
- Water Treatment & Desalination Chemicals
- Clean Technology & Sustainability Solutions
- Waste Management, Feedstock Linkages, Processing & Marketing Consultancy
- Industrial R&D and Innovation
- Mechanical & Thermal Processing Technologies
- Inorganic & Organic Chemicals
- Construction Chemicals & Additives
- Textile, Leather & Paper Chemicals

PETROCHEMICALS

- Polymers & Engineering Plastics
- Dieffins
- Synthetic Fibers & Filaments
- Elastomers & Rubbers
- Aromatics & Derivatives
- Surfactants
- Bio-based & Recycled Petrochemicals
- Performance Plastics & Composite Materials
- Packaging Materials & Films
- Specialty Polymers for Automotive, Aerospace & Electronics

PROCESS PLANT MACHINERY & EQUIPMENT

- Process & Plant Technology
- Advanced Machinery & Equipment
- Engineering, Project Management & Construction Services

- Digitalization, Automation & Smart Manufacturing Solutions
- Environmental & Pollution Control Systems
- Filtration & Separation Technologies
- Process Plant Design & Turnkey Services
- Pumps, Valves & Safety Systems
- Pipes, Tubes, Fittings, Test Kits & Procedures
- Environmental & Water Management Systems
- Laboratory Equipment & Analytical Apparatus
- R&D Instruments & Pilot Plants
- Spectroscopy, Chromatography & Microscopy Solutions
- Testing, Measurement & Instrumentation Technologies
- Robotics & AI-driven Solutions for Chemical Plants
- Fire Safety, Hazard Management & Industrial Safety Systems

About Us

ChemEngg Research Pvt. Ltd. is a trusted Contract Research and Manufacturing Organization (CRMO). We specialize in delivering end-to-end chemistry solutions, from innovative research to large-scale manufacturing. With a commitment to excellence and a focus on customer satisfaction, we serve diverse industries worldwide by offering tailored solutions that meet their unique chemical and analytical needs.

Specialized Services

1. Contract Research Services and Consultation: Comprehensive chemistry-based R&D solutions.
2. Chemical Analysis Services: Advanced analytical techniques for precise results.
3. Water Testing Services: NABL-accredited testing for reliable quality assurance.

Our Products

1. All salts of Thioglycolic acid-Sodium (Na), Ammonium (NH₄), Potassium (K) & Methyl Derivatives
2. 2-Chloroacetamide
3. Metal Organic Frameworks (MOFs)
4. Protein Hydrolysate
5. Liquid Sulphur
6. Water treatment chemicals
7. Specialty Chemicals

CHEMICAL MARKET
Connecting the Chemical Industry Together!

Vince Camuto Introduces Wonderbloom Bliss Eau De Parfum, A Radiant New Expression Of The Wonderbloom Collection

NEW YORK, May 1, 2026 / PRNewswire/ -- Vince Camuto introduces Wonderbloom Bliss Eau de Parfum, the newest fragrance in the beloved Wonderbloom collection. Budding Actress and Global Brand Ambassador for Vince Camuto Fragrances, Ava Phillippe, returns to the world of Wonderbloom, marking her third consecutive campaign for the franchise.

Wonderbloom Bliss builds on the delicate yet strong spirit of its predecessors, Wonderbloom and Wonderbloom Haze, extending the signature family into a joyful new expression. Anchored by radiant freesia – a luminous thread that runs throughout the collection – Wonderbloom Bliss celebrates the brand's hallmark blend of bright florals, succulent fruits, and warm, sensual woods – a modern expression of femininity that feels radiant, confident, and uniquely personal.

"Continuing my journey with Vince Camuto through Wonderbloom Bliss is such a delight and this next chapter feels warmer and more grounded, while still full of light," said Phillippe. "Wearing it has helped me tap into an inner confidence, and I can't wait for others to feel that same sense of becoming when they spritz it." With the launch of Wonderbloom Bliss, a new magical campaign comes to life.

Welcome to the enchanting world of Wonderbloom – a surreal floral dreamscape where oversized blooms and radiant color transform nature into something extraordinary. Emotions are amplified through bold, mysterious, and deeply charming beauty. Step into a

garden of exuberance and vibrant energy, where a luminous stroll awakens the senses and transforms everyday moments into something magical.

Inspired by the dreamy yet confident

spirit of the campaign, Wonderbloom Bliss opens with a radiant blend of juicy lychee, water jasmine, and orange blossom water, delivering an immediate burst of freshness and lighthearted joy. At its heart, creamy orchid unfolds into a bouquet of soft jasmine petals and freesia, creating a luminous floral harmony. The fragrance settles into a sensual amber base of sandalwood and musks that leaves a glowing, skin-like warmth.

Effortlessly radiant and emotionally uplifting, Wonderbloom Bliss captures the feeling of stepping into your most confident self.

It is the must-have fragrance of the season – a luminous, joyful scent perfect for layering or wearing on its own to feel radiant all day.

The result is a modern amber floral that feels both captivating and serene – vibrant, uplifting, and designed to leave a soft, radiant aura on the skin.

"With Wonderbloom Bliss, I wanted to compose a fragrance that matched a woman's confident energy, where rich warmth supports passionate florals," said Clement Gavarry, Principal Perfumer, creator behind the scent. "It's untamed beauty with refined depth – the kind of scent that amplifies your natural aura."

"Wonderbloom Bliss represents a natural next chapter for both the collection and our partnership with Ava," said Lori Singer, President of Parlux. "She brings a genuine sense of authenticity and perspective that aligns seamlessly with the spirit of Wonderbloom, expressing a modern femininity that feels both relevant and enduring."

Wonderbloom Bliss is housed in the collection's signature bottle, now adorned with a soft pink sculpted petal cap. Each petal forms a radiant bloom that reflects the fragrance's gentle warmth, optimism, and natural beauty.

How the India–New Zealand FTA is Transforming Chemical Trade and Competitiveness

Vinodhini Harish

Introduction:

The Free Trade Agreement FTA between India and New Zealand marks a significant milestone in strengthening bilateral economic ties. The chemical industry is considered one of the foundational sectors, and chemicals serve as critical inputs across industries such as pharmaceuticals, agriculture, automotive, construction and electronics. At the heart of this agreement lies a transformative opportunity: the elimination of tariffs on 100% of Indian exports to New Zealand. For an industry valued at over \$200 billion, even modest tariff reductions historically played a decisive role in determining competitiveness, particularly in price-sensitive and bulk-

driven segments. We have discussed some of the important implications in this article, and let's begin.

Tariff elimination: expansion of export potential for Indian chemicals:

India exports a wide range of chemical products, including specialty chemicals, intermediates, dyes and pharmaceuticals. The FTA eliminates tariffs on all Indian exports to New Zealand, improving price

competitiveness in bulk-based, margin-sensitive segments. This reduction in landed costs enhances pricing flexibility and market penetration for Indian chemical exports.

Since there is tariff-free access, Indian

chemicals. Some of them include agrochemicals, coatings, adhesives, and performance materials. FTA has created an open space of developed markets with high-quality demand, and every market player is eager to meet the international standards. This has opened

access to a developed and quality-sensitive market like New Zealand. Although the demand is relatively small in New Zealand, it is highly sophisticated. This factor is crucial because the specialty chemicals market thrives not on volume but on precision, quality, and innovation. Therefore, access to such a market compels Indian manufacturers to upgrade their processes to align with global standards and invest in cleaner and more efficient production systems.

Over time, this is expected to transform from cost-based competition to value-

based differentiation. Therefore, FTA does more than the expansion of exports to the industry. exporters can now expand into new niche segments in New Zealand. They can compete more effectively with the suppliers from Europe and East Asia, and they can also focus on increasing their export volumes, especially in specialty and fine chemicals.

Boost in specialty chemicals and other high-value segments:

India has been steadily transitioning from commodity chemicals to specialty

agrochemicals:

Agrochemicals:

The agrochemicals segment represents one of the most natural areas of synergy between the countries. India brings in scale, cost efficiency, and manufacturing strength in fertilizers and crop protection chemicals to the table, and New Zealand brings in world-class

EVENTS AND CONFERENCES

CPHI CHINA- VIRTUAL CPHI

Date : June, 16-18, 2026

City : Shanghai New International Expo Center

Country : Japan

Website : <https://www.cphi.com/china/>

Description : CPHI & PMEC China brings together suppliers and buyers across the entire pharma supply chain, in the home of modern medicine. Position your business as a key player in a thriving market and access a market built on rapid innovation. Join us in Shanghai to network, source cost-effective solutions, and conduct vital face-to-face business.

CPHI NORTH AMERICA

Date : June, 2-4, 2026

City : Pennsylvania Convention Center, Philadelphia

Country : Philadelphia

Website : <https://www.cphi.com/americas/>

Description : CPHI Americas 2026 moves beyond the traditional trade show format to create a premium, content-first experience specifically centered around the contract development and manufacturing ecosystem.

This isn't just another iteration – it's a complete reimagining of what a pharmaceutical industry event can be. Our specialized focus on contract manufacturing partners ensures every aspect of programming, networking, and content delivers maximum relevance and business value to our community.

COATINGS FOR AFRICA

Date : June, 24-26, 2026

City : Sandton Convention Centre, Johannesburg, South Africa

Country : South Africa

Website : https://www.coatingsforafrica.com/?utm_source=google&utm_medium=organic&utm_campaign=seo

Description : With a rich history of success through its association with the South African Paint Manufacturing Association (SAPMA), Coatings For Africa is the largest dedicated event for the coatings industry in Southern Africa. Over three days, the trade exhibition provides valuable opportunities for serious business and networking within the coatings community.

The event offers the ideal environment for manufacturers, raw material suppliers, distributors, buyers, and technical specialists such as chemists and formulators to meet face to face and conduct business. It also provides a platform to gain insights into the latest processes, exchange ideas with industry leaders and build a strong network across the Southern African region.
