About Us

ChemEngg Research Pvt. Ltd. is a trusted Contract Research and Manufacturing Organization (CRMO). We specialize in delivering end-to-end chemistry solutions, from innovative research to large-scale manufacturing. With a commitment to excellence and a focus on customer satisfaction, we serve diverse industries worldwide by offering tailored solutions that meet their unique chemical and analytical needs.

Specialized Services

1. Contract Research Services and Consultation: Comprehensive chemistry-based R&D solutions.
2. Chemical Analysis Services: Advanced analytical techniques for precise results.
3. Water Testing Services: NABL-accredited testing for reliable quality assurance.

Our Products

1. All salts of Thioglycolic acid-Sodium (Na), Ammonium (NH₄), Potassium (K) & Methyl Derivatives
2. 2-Chloroacetamide
3. Metal Organic Frameworks (MOFs)
4. Protein Hydrolysate
5. Liquid Sulphur

CHEMICAL MARKET

A MONTHLY MAGAZINE DEVOTED TO THE DYES, CHEMICALS, PHARMACEUTICALS, TRADE & INDUSTRY SINCE 1982

The Future of Chemicals Will Be Built on Connections, Not Just Capacity

The global chemical industry has always evolved through periods of disruption. From economic cycles and geopolitical tensions to changing regulations and technological breakthroughs, every challenge has reshaped the way businesses operate. Today, the industry stands at another defining moment.

Global supply chains continue to adjust to geopolitical uncertainties, fluctuating energy prices, and shifting trade patterns. Sustainability has become a business imperative rather than a compliance requirement, while customers increasingly demand innovation, reliability, and faster response times. Around the world, chemical companies are investing in specialty chemicals, green technologies, digitisation, and smarter manufacturing to remain competitive in an increasingly connected marketplace.

Amid these global shifts, India continues to strengthen its position as one of the world's fastest-growing chemical manufacturing hubs. Rising domestic demand, expanding exports, supportive government policies, and the continued diversification of global sourcing have created tremendous opportunities for Indian manufacturers. Specialty chemicals, agrochemicals, construction chemicals, coatings, water treatment, and performance materials are all expected to remain strong growth drivers in the years ahead.

Yet perhaps the biggest transformation is not happening inside manufacturing plants—it is happening in the way businesses connect.

Today's buyers begin their sourcing journey online. Procurement teams expect faster communication, verified supplier information, and immediate access to product details. In this environment, visibility and responsiveness have become

just as important as product quality and competitive pricing.

Recognizing this shift, we continue to strengthen the Chemical Market Leads Platform to help businesses connect, communicate, and convert opportunities more effectively.

One of the most significant upgrades is our enhanced Buy Enquiry Module, designed to simplify enquiry management and accelerate customer engagement. With the introduction of Reply Templates, members can now send professional acknowledgements, quotation requests, product availability updates, and follow-up responses within seconds. Faster responses not only improve customer experience but also increase the likelihood of converting enquiries into long-term business relationships.

To ensure that no opportunity goes unnoticed, we have also introduced real-time notifications, along with WhatsApp and SMS integration. Members receive instant alerts whenever a new enquiry is received, allowing them to respond quickly—whether they are at their desk, travelling, or attending industry events.

Another important initiative is our Verify & Update Profile campaign. A complete, verified company profile significantly enhances credibility and visibility on the platform. Buyers are naturally more confident engaging with suppliers who provide accurate company information, detailed product portfolios, certifications, and updated contact details. A strong digital presence has become an essential business asset.

Beyond connecting buyers and sellers, we believe that knowledge is equally important in driving business growth. Our Content Distribution Partner Program provides companies with an opportunity to share

technical articles, market insights, product innovations, sustainability initiatives, and success stories with a highly targeted industry audience. By contributing valuable knowledge, organizations strengthen their brand reputation while positioning themselves as trusted industry partners.

This commitment to industry knowledge is also reflected in Chemical Market Magazine. Every issue is carefully curated to deliver meaningful insights into market trends, regulatory developments, emerging technologies, business opportunities, and expert perspectives that help professionals stay informed in a rapidly changing environment.

In today's competitive marketplace, information is no longer a luxury—it is a strategic advantage. Businesses that stay informed, respond faster, and embrace digital platforms will be better positioned to seize new opportunities and build lasting partnerships.

As we move further into 2026, our commitment remains unchanged: to create a stronger, smarter, and more connected chemical industry. Whether through technology, trusted market intelligence, or meaningful business networking, Chemical Market will continue to provide the tools and knowledge that empower our industry to grow.

Thank you for being part of our journey. If you are not yet a subscriber, we invite you to join the growing Chemical Market community and discover how timely information, valuable connections, and digital innovation can help shape your business success.
